1. The anti-aircraft defense of the Yugoslav coast stretching from Fiume to Ulcinj is divided into eight sectors and has 290 batteries. In Boka Kotorska alone there are 40 anti-aircraft gun and heavy machine gun batteries. The eight defense sectors are Fiume, Kraljevica, Zadar, Sibenik, Split, Gruz, Boka Kotorska (Zolinika, Tivat, Kotor and Budva) and Ulcinj.
2. The anti-aircraft batteries are equipped with two to three 88 mm. "Skoda" guns built by the Kragujevac factories. The heavy machine gun batteries have three to five 20 and 25 mm. caliber guns.
3. The Boka Kotorska sector, considered the most important because of its vulnerability, is equipped with 20 batteries of two 127 mm. anti-aircraft guns each, of Soviet make. Each sector command is equipped with searchlight units, each consisting of four searchlights 150 mm. in diameter. The Boka Kotorska sector has twelve searchlight units.
4. The commands of the above-listed sectors are connected with each other by means of field telephone lines and field radio stations operating on ultra-short wave.
